Solar panels can range in their energy output from roughly 75 watts to 350 watts, with an average output of about 250 watts. When solar panels are grouped together, they form a solar panel system. The energy potential of the system is calculated by the number of panels multiplied by their power output.

Intertech is a company that is striving to make a difference in our environment through solar and backup energy. Our firm offers the highest quality in every aspect to assure that renewable energy systems provide dependable service for many years to come. We are experts in Solar energy, electro-mechanical and medical equipment solutions.
