An individual power log is established for each PV module; this log certifies the strict compliance with the nominal power. This is the only way to evaluate and optimise PV systems with precision. Moreover, this thorough quality control guarantees that KIOTO PV modules have a long service life and can withstand the weather.

KPV uses modules of the in-house partner KIOTO Photovoltaics GmbH for its large PV power plants. These modules are produced in Austria according to ISO 9001/2000 Standards with all required IEC certificates (IEC 61215, IEC 61730). Impressum AEB Kontakt.
