Prior to the recent problems with the new JK-BMS, it seemed the consensus was that JK-BMS was better than Daly BMS. Now it's less clear, at least in my mind. I'm leaning toward the JK-BMS. I have both the Daly 16S 48V 300A BMS and the JK-BMS 200A 2A model to choose from. Battery is EVE DIY 16S2P 48V. Which is better? I'm leaning toward the JK-BMS.

Daly actively balances the home storage BMS, which can customize secondary protection, gyroscope anti-theft and other functions, so that PACK can meet the safety certification requirements of different markets.
