Is Kosovo a member of the Energy Community?

Kosovo is a member of the Energy Community, an international organisation that brings together the European Union and its neighbours in southeast Europe to create an integrated pan-European energy market. The organisation was founded by the 2006 Energy Community Treaty to extend the EU internal energy market to southeast Europe.

How can Kosovo improve its energy sector?

The Group's commitment to helping Kosovo improve its energy sector is broad: projects are designed to improve energy efficiency, ease the policy and regulatory environment for renewable energy and energy efficiency, address the environmental legacy of the old power plants, upgrade power generation to meet demand, and improve water supply.

What does Kosovo's Energy Strategy look like?

The Government of Kosovo is currently finalizing a long-awaited energy strategy where it is expected to announce the eventual decommissioning of one of the coal-fired power plants, set a renewable energy target for 35 percent of all electric energy consumption by 2031, and further integrate in regional energy markets.

What energy sources can Kosovo use?

There are three main sources of energy Kosovo can potentially use to satisfy this demand--lignite,gas and renewables. Lignite: We no longer see any realistic prospect for external financing of a new lignite power plant in Kosovo.

Will Kosovo use solar energy for district heating?

In late December 2022, Kosovo became the first country in the Western Balkans Economy to use solar energy for district heating. Kosovo's Minister of Finance, Labour and Transfers, Hekuran Murati, said the project would ensure access to the central heating system for about 38,000 citizens.

Who regulates the energy sector in Kosovo?

Regulation of activities in energy sector in Kosovo is a responsibility of the Energy Regulatory Office (ERO). An additional factor in the energy sector in Kosovo is Ministry of Economic Development (MZHE),which has the responsibility of dealing with issues that have to do with energy. MZHE prepares legislation and drafts strategies and projects.
