

KOSOVO STORAGE SOLUTION FOR PH AND ORP ELECTRODES

Manufactured specifically for pH and ORP electrodes. Clearly marked expiration date and lot number. HI70300L is a solution that can be used to store your pH electrode*. To ensure an optimum response time, the glass sensor tip and the ???

HI70300S is a storage solution prepared with reagent grade chemicals that can be used to ensure optimum performance of your pH and ORP electrodes. It is necessary to store a pH electrode in a solution in order to keep the glass membrane of the pH electrode hydrated.

Manufactured specifically for pH and ORP electrodes. Clearly marked expiration date and lot number. HI70300L is a solution that can be used to store your pH electrode*. To ensure an optimum response time, the glass sensor tip and the reference junction of the pH electrode should be kept moist and not be allowed to dry out when not in use.

KOSOVO STORAGE SOLUTION FOR PH AND ORP ELECTRODES

Ensure optimum performance of your pH and ORP electrodes by filling the cap of the pH meter at all times with the electrode storage solution, and never use distilled nor ionized water. HOW TO USE:
Replace the solution inside the ???

Extend the lifespan of your pH or ORP electrode with Apera Instruments 3M KCL Storage Solution. Keep your electrodes accurate and sensitive by soaking them in this high-purity storage solution. Available now at Ubuy Kosovo Global Store.

MA9015 Storage Solution for pH/ORP electrodes
Health & Safety data sheet According to EC Directive 91/155/EC and following amendments 2
SECTION 9 - PHYSICAL/CHEMICAL
PROPERTIES ??? Appearance : colorless liquid
??? density at 20°C : ???
