Kyrgyzstan and IFC have signed an agreement to advance the second phase of a solar energy project, developing two new solar plants in Batken and Talas. This initiative aims to meet rising electricity demand and promote sustainable energy, contributing to Kyrgyzstan's goal of 1,500 MW renewable energy by 2035.

The Ministry of Energy of Kyrgyzstan plans to purchase ten solar stations for low-income families. The corresponding announcement was posted on the public procurement portal. It is reported that families in Zhaiyl and Chui districts will get five stations each.

The Eurasian Development Bank (EDB) announced on Tuesday the signing of a cooperation deal with Bishkek Solar in connection with a 300-MW solar photovoltaic (PV) project in the Kyrgyz Republic, or Kyrgyzstan.
