Wholesale Lithium-Ion Battery for PV Systems?
Simply put, a lithium-ion battery (commonly referred to as a Li-ion battery or LIB) is a type of rechargeable battery that is commonly used for portable electronics and electric vehicles. The popularity of this kind of battery is also steadily growing for military and aerospace applications. In a lithium-ion battery, lithium ions move from ???

I purchased 2 x Blue Nova Lithium batteries to replace the lead acid type. These will be used on a 24 v invertor. On reading the instructions the BN batteries have to be individually charged first with a 12 V charger. I have a 12 V Ellies charger as well, which I have now used to charge the batteries separately before they get dropped into the 24 V invertor.

I have the Mecer Unit, seems the same specs as this ellies one being talked about. I think mine is about 3.5 yrs old now. Theres two charging settings/rates that you can choose with the switch at the back of the inverter, maybe your dads one is set on the faster rate (excuse my layman talk, I dont get electricrky at all).

ELLIES AAA Rechargeable Battery Charger BSEMUCAA Universal Charger is designed to charge both Nickel Cadmium (Ni-Cd) and Nickel-metal Hydride (Ni-MH) batteries. It can charge two rechargeable batteries, size AAA (R03) or AA (R06) or 1 or 2 9V. The charger includes 2 x AAA (R03) Ni-MH batteries.

Lithium batteries are found in everything from phones and laptops to watches, cameras and toys. For shipping, all types of lithium batteries are classified as dangerous goods ??? with special regulations for packing, labelling, documentation and handling.
