provides power for charging and maintaining the float charging current for the battery. This ensures that, if a mains failure should occur, the battery is ready to supply the full power for the intended backup time. Optional test equipment can be supplied with the rectifiers, to undertake the repeat measurements necessary in power station

Smart solutions for the conversion of energy in multi-purpose or storable energy drives the company. BENNING is known worldwide as a quality leader for reliable and efficient power supplies for the Telecommunications, Industrial, Medical ??

LEBANON BENNING WORLD CLASS POWER SOLUTIONS

BENNING World Class Power Solutions 5 MCU 2500 features Comprehensive and Clear Monitoring Functions Remote operation and monitoring of power systems To ensure real time feed back of critical system parameters and alarm events, DC or AC power systems need to have power ful and intelligent remote monitoring solutions.

2 BENNING World Class Power Solutions MCU 2500 Monitoring and Control System for Telecoms and Industry Monitoring and Control System MCU 2500 The quantity of IT and telecommunication equipment with re - lated AC and DC power systems has increased dramatically during recent decades. To handle this rapid growth whilst maintaining system relia -
