

SunCulture enabled farmers to benefit from the carbon markets by reducing prices, thus taking on the risk of carbon credit realisation in favor of offering reduced prices to its customers. For SunCulture's entry-level product i.e., ClimateSmart Direct + RainMaker2, this represented a 25% reduction in price compared to true price.

SunCulture's vision is to build a world where people take control of their environment in rewarding sustainable ways. We do this by developing and commercializing life-changing technology that solves the biggest daily challenges for the world's 570m smallholder farming households. We deal in comprehensive solar powered irrigation systems of the RainMaker brand.
