

What is a Bess calculator & how does it work?

The new BESS calculator uses a proprietary model to balance maximizing returns over the asset lifetime with optimizing battery lifespan by accounting for critical battery specs and degradation parameters, such as depth of discharge (DoD), round-trip efficiency (RTE), and charge and discharge cycles.

Why should you use a Bess battery calculator?

By replacing costly and labor-intensive BESS system design, the calculator instantaneously generates financial projections and recommends ideal battery size and operation modes to introduce economies of scale to battery deployment. Providing decision-making insights, the calculator presents straightforward visualizations of energy and cash flow.

Does enSights have a Bess calculator?

enSights announced it is launching a new BESS calculator to empower developers and asset owners to fully benefit from the massive energy storage sector by optimizing battery sizing for maximized financial returns based on energy market and grid support opportunities.

What's new in Bess v1 & v2?

v1.1 Added "FB" that represents fixed component of the BESS prices which is not affected by the annual declining rate in BESS prices (01/2021). v1.2 An option to discharge the battery starting from the end of low tariff period (02/2021). Copyright @ 2021

A quick and efficient way to compare annual salaries in Libya in 2021, review income tax deductions for annual income in Libya and estimate your 2021 tax returns for your Annual Salary in Libya.
