So what's the magic of this "Newton Battery?" Basically, it's a way to store electricity by using gravity ??? when you have excess electricity, like from a solar panel when the power is not needed, that power is diverted to run an electric motor that pulls a ???

We proudly serve all Libyan cities and areas with the best selection of automotive battery brands. See our featured battery brands below and check every brand for more details about the ???

The basis for this new energy storage technology is called the "Newton Battery," which uses gravitational force to power the grid and, unlike lithium, is a limitless resource. With the "Newton Battery," there's also no degradation like you find with lithium-ion batteries.

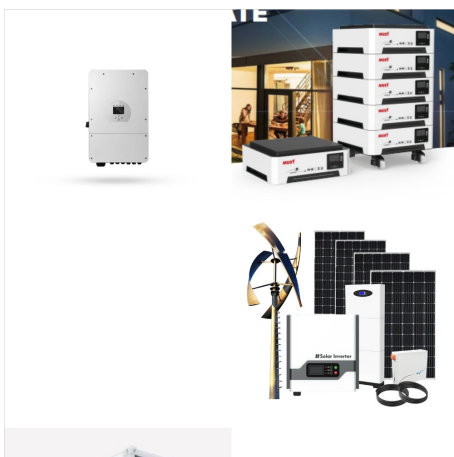

The Newton battery functions much like a water tower that incorporates a turbine that generates power regardless of the direction of the water flow. There is always a diminishing return, but the energy stored can be turned on for instantaneous response to demand. Excellent design and will put pressure on battery companies to control costs!
