Sunrays power installed my solar late in 2019, was a small discrepance on how many panels as my roof had an unusual section and they couldn't mont on it so i ended up with 5.something kw instead of the 6kw. System was jinko panels with a Fronious 5kw inverter with wireless login function and tracking. System has been faultless and performed

Who is Sunrays Power Solutions Pvt. SRPS provides Consulting services and delivers proficient solutions for development of solar projects based on PV technology from the concepts of basic ideas, land identification, selection and feasibility reports, EPC (engineering, procurement, and construction) services, project development, financing and government approvals.

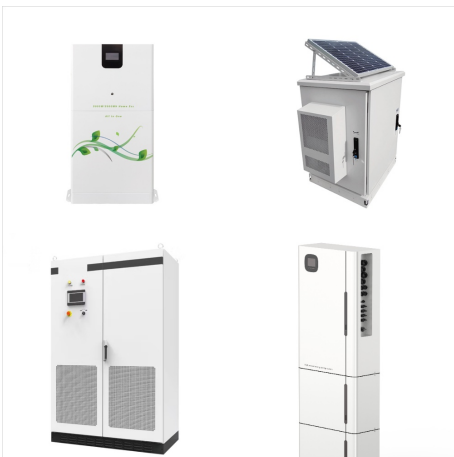

, Sunrays Power has provided high-quality solar panel solutions, including solar inverters, batteries, and off-grid systems. The company emphasizes a customer-centric approach, offering comprehensive support from initial consultation through to post-installation services.

Our vision at Sunrays Solar Solutions is to lead the way in promoting the widespread adoption of solar energy as a sustainable and reliable power source. We aim to be the preferred partner for businesses and individuals seeking to reduce their carbon footprint and embrace renewable energy solutions that benefit both the environment and the bottom line.

Sunrays Power set up the solar monitoring portal for the client, so the client can fully monitor the system and they can forecast their future electricity bills for budgeting. Sunrays Power presented client two choices for financing, either a Chattel Mortgage on the solar system, or go with the Rental option to get better tax benefits.
