

After participating in a yearlong educational series on establishing a new carbon reduction goal and soliciting public opinion, the LES Administrative Board in November 2020 adopted a robust decarbonization goal. This new goal will aim to eliminate or offset LES' carbon dioxide production from our generation portfolio by 2040, in line with the city's Climate Action Plan ??? a citywide ???

Fairfield St. | Lincoln, NE Commissioned in October 2020, the LES Community Microgrid normally functions as a part of the bulk electric system. Should the need arise, however (e.g., a large or persistent outage occurs in the Lincoln area), the microgrid has the ability to power a portion of the downtown Lincoln area as an island
