

Linka er grundlagt i 1978 i kølvandet på den globale oliekrise. Lige fra starten har vi haft fokus på udvikling og optimering af miljørigtige energiformer baseret på biobraendsel. I dag er vi blandt verdens førende specialister inden for udvikling, projektering og opførsel af fuldautomatiske kvalitetsanlæg til hele verden.

Linka was founded in 1978 in the wake of the global oil crisis. Since the beginning we have focused on the development and optimization of environmentally friendly forms of energy based on biomass. Today we are among the world leaders within development, design and construction of fully automatic high-quality plants worldwide.

Linka Energy A/S Since 1978, Linka Energy has been building fully automated plants, helping to reduce large amounts of carbon dioxide with our customers. With more than 40 years of experience and knowledge of biomass combustion, the company is today one of the world's leading companies in the field.
