

We are very pleased to partner with Cleantech Solar, for their support to achieve the first milestone of our vision w.r.t Renewable Energy and we appreciate them for their high-quality, cost-competitive and environment-friendly solar power. These solar projects will help us to move towards carbon neutrality."

I have just installed my Multi RS Solar and have noticed a few features which would make this unit more useful. Most of these features should be available with tweaks to the firmware and VictronConnect app. My point is, it would be nice if the unit did this out of the box as lintech has mentioned. As for the documentation, I have a few

The world's largest solar companies must continuously develop innovative technologies to remain competitive. While new innovations may be promising in R& D, any cost reduction innovation must also meet reliability and performance specifications when manufactured at high volumes. In some cases, the invention may be so unique that no existing

Since July 2009, the production station of the company named LINTECH-SOLAR, has launched its routine production of photovoltaic panels. In 2014 the owners of the company decided to separate Solar division from company Lintech and so on September 1, 2014 was created an independently functioning company Lintech Solar Energy s.r.o.
