Battery and Device Disposal and Recycling Ship with Confidence. CellSafe Battery Pail Kits are a safe solution for the collection, storage and shipping of lithium-ion batteries. Using CellBlockEX technology, they provide green, reliable protection from thermal runaways. Kits are a DOT special permit qualified answer for DRR services and battery recycling programs.

Why is that? It's because making lithium battery packs used to require special tools and highly skilled workers to use them. But not anymore! VRUZEND lithium battery building kits were designed to solve that problem. The plastic end caps slip tightly over the end of the most common lithium battery cell format, the 18650 cell.

Call2Recycle's battery recycling kits allow for safe, responsible recycling of batteries and cellphones. Lithium Ion (Li-Ion), Small Sealed Lead Acid (SSLA/Pb), Nickel Cadmium (Ni-Cd), Nickel Metal Hydride (Ni-MH), Nickel Zinc (Ni-Zn), Lithium Primary, Alkaline, Carbon Zinc, button and coin cell batteries, and all cellphones are accepted

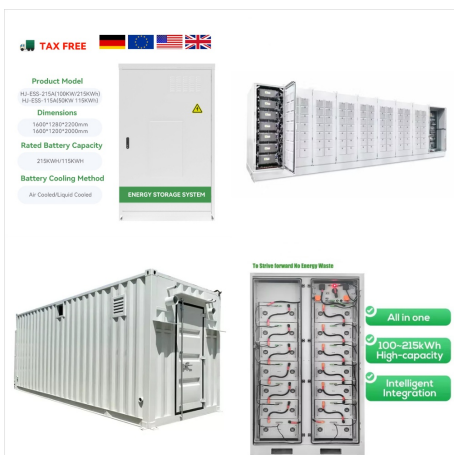

When preparing shipments containing lithium batteries, it is important to ensure the batteries are not in any way defective, damaged, or have the potential to produce a dangerous evolution of heat, fire or short circuit. When packaging lithium batteries for shipment, strong rigid outer packaging must be used.
