

Lithium-Ion Batteries. Lithium batteries in Pakistan are gaining popularity as a reliable and efficient energy storage solution. With advancements in technology and the increasing demand for renewable energy sources, lithium batteries offer a sustainable option for storing electricity generated from solar panels or other renewable sources.

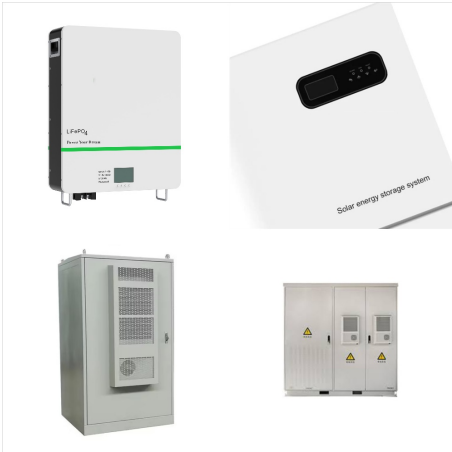

Each module of solar wall-mounted lithium ion battery and lithium ion battery with rollers independently developed by Anern is equipped with an independent BMS system, which has a deep cycle of more than 6000 times, up to 90% of DOD and phosphate batteries. They can provide power solutions for a variety of residential and industrial hard work.
