

Senior executive with 30 years of experience in the mining industry in Chile (lithium, copper, iodine, potassium and nitrates). Leading commercial and operational areas, business and project development, M& A negotiations and ???

Lithium Power International Limited ("LPI" or the "Company") is a pure play lithium company formally listed on the ASX on 24 June 2016 and de-listed on 15 March 2024, following a Scheme of Arrangement with the Chilean State Enterprise ???

Lithium Power International Limited is an Australia-based pure-play lithium company with three distinct project regions to provide diversification. The Company's primary focus is to develop Chile's high-grade lithium mine on the Maricunga Salar in ???

SYDNEY, Australia, June 19, 2023 (GLOBE NEWSWIRE) -- Lithium Power International Limited (ASX: LPI) (LPI or the Company) is pleased to announce that it has entered into a binding agreement to sell

Lithium Power International is a pure-play lithium development company with assets diversified across both hard-rock in Western Australia and brine in South America. Through our Chilean Joint Venture ??? Minera Sala Blanco S.A, ("MSB") ??? we have advanced the world class Maricunga Lithium Brine Project ("the Project") over the past year.

Australia's Lithium Power International said on Monday that it will sell its wholly-owned unit Western Lithium to the Australian arm of U.S.-based Albemarle for A\$30 million (\$20.64 million).

At Lithium Power, we prioritize customer satisfaction and strive to exceed expectations through our unwavering commitment to quality and innovation. Our state-of-the-art manufacturing facilities, stringent quality control processes, and a highly skilled workforce enable us to consistently deliver products of the highest standards.

Lithium Power, Inc. Heidi Derrick
2024-06-28T21:16:11+00:00. Lithium Power, Inc. INDUSTRY LEADER IN CUSTOM-MADE LITHIUM BATTERIES. Lithium Power, Inc. Your premier choice for cutting edge lithium battery design and manufacturing solutions. With unwavering commitment towards innovation, Lithium Power, Inc. is revolutionizing the energy storage

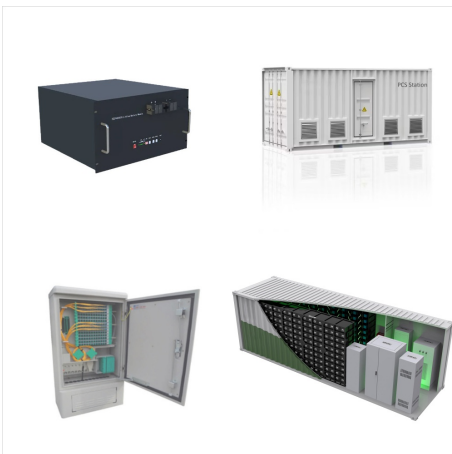

PowerPaul(R) lithium batteries handcrafted in Melbourne. Each battery is meticulously tested and cycled twice for peak quality and capacity. The Scout is our original and most popular offering, now with even more capacity with the MB31 cells. Big power packed into a small package, with parallel expandability to meet any power needs

Revolution Power lithium power systems are engineered to work and extensively tested in the field. We have decades of hands-on experience across boats big and small, 4WDs, caravan, RV, camper trailer, remote touring and more.

Lithium Power International (LPI) is a pure-play lithium company focused on the development of Chile's next sustainable high-grade lithium mine. Maricunga Project The Maricunga JV Project is located within the "Lithium Triangle" in northern Chile, home to the largest and highest quality lithium brine deposits.

Lithium Power International Limited, engages in the identification, acquisition, exploration, and development of lithium assets in Chile and Australia. The company holds interest in the Maricunga lithium brine project covering ???

We offer turn-key custom made lithium battery packs for your business. At Lithium Power, Inc., we take pride in our team of professional engineers who are experts in engineering and manufacturing custom lithium batteries and battery systems ideally suited for various industries and applications.

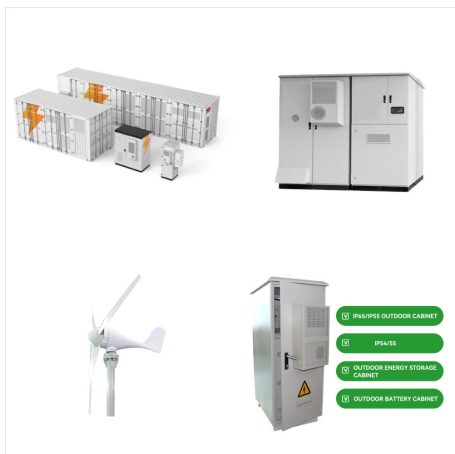

Lithium Power (LPI) is a pure-play lithium company focussed on the development of Chile's next sustainable high-grade lithium mine. The Project is located within the "Lithium Triangle" in northern Chile, home to the largest and highest quality lithium brine deposits. Maricunga, Chile.

Welcome to Lithium Powersports, formerly known as Built eBikes, the company where we're all just a bunch of dirt-loving, street-riding, electric bike enthusiasts who've been at this riding game for way too long. Our team is made up of riders who've been hitting the dirt since before we could spell our own names and who

Lithium carbonate demand, driven by its use in automobile applications, is projected to grow at a rate of 18.8% per year until 2036. However, development projects to meet future demand growth are limited and slow due to permitting and construction constraints, resulting in expectations of strong forward pricing.

Lithium Power's proprietary BMS technology is broadly configurable, allowing for flexibility to make a wide range of adjustments. Depending on our customer's unique requirements, we then tailor our BMS to adapt to a diverse range of industries and application parameters. Whether integrated with a specific cell type or Lithium chemistry or fine-tuned to accommodate multiple

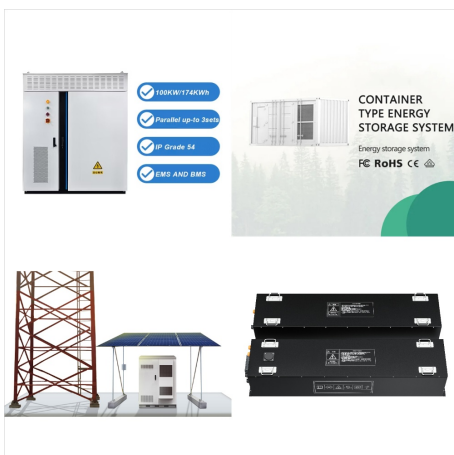

Senior executive with 30 years of experience in the mining industry in Chile (lithium, copper, iodine, potassium and nitrates). Leading commercial and operational areas, business and project development, M& A negotiations and asset valuations. Board member of lithium, copper, gold and exploration companies in Chile.
