

EnerSys PowerSafe SBS-60 VRLA Battery 12.0v 51.0Ah
EnerSys PowerSafe??? SBS60 battery utilizes unique and proven technology to provide superior performance with an extended service life in compact and energy dense ???

The EnerSys(R) PowerSafe SBS60 battery from Specialist Power Systems continues to offer unrivalled choice and performance in compact and energy dense configurations. The PowerSafe SBS60 is manufactured to the highest international standards and ideal for reliable use in all wireless and fixed-line communication applications.

The advanced thin plate, pure lead technology and unique manufacturing methods, used by EnerSys(R), make PowerSafe SBS batteries the choice for long and trouble-free service. PowerSafe SBS EON Technology??? batteries have been developed to provide high cycling and fast recharge performance in applications where the power supply is erratic. SBS ???

Battery EnerSys SBS 60 12V Experience the power of innovative TPPL (Thin Plate Pure Lead) technology. Now available in market-leading front-terminal capacity variants, these batteries are designed for extraordinary durability, maximizing total cost of ownership and ensuring reliability in telecom, UPS and industrial applications.

POWERSAFE SBS. PowerSafe SBS batteries are designed to cope with raised temperatures and harsh environments. The advanced pure lead plate technology and unique manufacturing methods used by EnerSys, make PowerSafe SBS batteries the ???

EnerSys Powersafe SBS 60 Battery . High Tech Battery Solutions features the EnerSys Power Safe SBS-60 telecom battery, this branding battery range utilizes unique and proven technology to provide a superior range of valve-regulated batteries (VRLA) with an extended service life in compact and energy dense configurations.

ENERSYS SBS BATTERY: Eurobat Classification: Classified as "long life" according to Eurobat guide 1999. Design: High energy density. Vents: Self regulating pressure relief valves - prevent ingress of atmospheric oxygen. ???

Energys PowerSafe SBS batteries have been designed to cope with raised temperatures and harsh environment conditions. The advanced pure lead plate technology and unique manufacturing methods used by Energys help ensure PowerSafe SBS batteries for first choice for long and trouble free service for essential applications.
