Hey everyone, here is my latest Lego Ideas project based on the Solar System. I have always been into science and nature, so this set proposal is right up my alley. I decided to make the Solar System because I know many people on Lego Ideas are into science and space science. I have created the sun and the 8 planets from the solar system.

Sun - the Sun is 150 million kilometres away from  
the Earth. Mercury - is the smallest planet in our  
solar system. Venus - is the closest planet to Earth  
and it doesn't have any moons. Earth - is our home  
planetour distance from the sun allows for different  
seasons to exist. Mars - the "red" planet is currently  
being explored by the NASA Mars rover "Curiosity"

If there ever was a Technic submission that stood a chance, this would be it. Real life space-themed submissions have done pretty well in the past (ISS, Saturn V, Women of Nasa, Curiosity, Hayabusa) and this one has also similar novelty gimmicks that probably had a significant impact on the approval of sets like the Grand piano or the Typewriter so that might ???
