

Is Lorde doing a solar power tour?

John Shearer/Getty Images for Lorde NASHVILLE -- "This is crazy for me -- I haven't been just somewhere else doing this," Lorde told the audience at Nashville's Grand Ole Opry House midway through opening night of her 2022 Solar Power tour.

What does Lorde do on solar power?

On Solar Power, Lorde surrenders to normalcy--and finds transcendence. Ever since people started slinging around the word basic as an insult, delights as disparate as pumpkin-spice lattes, the music of Lizzo, and sunsets have gotten a bad rap. The diss refers to pleasure--simple pleasures, normal pleasures, things that everyone can enjoy.

Did Lorde sing 'the path' at solar power?

Lorde returned to the stage for the second act in a backless yellow dress and sang "The Path," kicking off a run of songs that exemplified the blissed-out vibe of Solar Power more than any other part of the concert.

Is Lorde sharper than he is in solar power?

Lorde the musician, social critic, and diarist has never been sharper, thankfully. As Solar Power meditates on the tension between achievement and comfort, it grazes masterpiece status--the only thing holding it back may be Lorde's disinterest in chasing accolades.

Why does Lorde's 'solar power' not wow?

Lorde's prioritization of private pleasure over the duties of pop stardom helps explain the parts of Solar Power that don't wow: a clutch of ballads written with such memoirist precision, and such disinterest in big catharsis, that they may exist more for her sake than the listener's. Yet even the duller fare makes a point.

Is Lorde right on time?

Nothing moves up a quarter-life crisis quite like a global climate catastrophe and a pandemic, so Lorde's is right on time. With Solar Power, she's right in the thick of it: wearied by teenage fame and capitalism, worried about the state of the earth and grieving the loss of her beloved dog Pearl.
