

Lower 48 Energy proposes a strategic 200 MW BESS development at Upper Greenfields, near the proposed Greens SSE Substation. This project, with containerized Li-ion batteries, aims to store excess renewable energy and stabilize the grid, supporting the UK's net zero goals and decarbonization targets.

Our team is comprised of long-standing energy sector professionals, proven in the development and deployment of large-scale energy projects, energy experts with in-depth knowledge of energy markets and consulting, electrical ???

???Battery Energy Storage Systems (BESS) store excess electricity until sold into the National Grid to meet industrial or domestic electricity demands. Our BESS assets help level out expensive ???

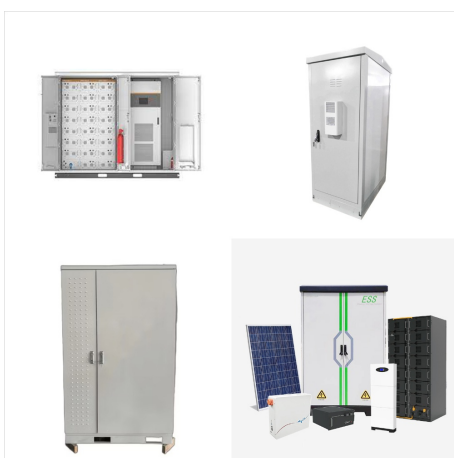

LOWER 48 ENERGY BESS LTD THAILAND

Our Battery Energy Storage Systems (BESS) store excess electricity until sold into the National Grid to meet industrial or domestic electricity demands. Our BESS assets help level out expensive peaks and troughs of electricity pricing caused by supply and demand imbalance.

Discover the L48 Lytham Battery Energy Storage System (BESS) by Lower 48 Energy, designed to stabilise the UK grid and maximise renewable energy use. Learn how our strategic BESS projects support the transition to net zero by 2050 and enhance grid reliability with sustainable energy solutions.

Lower 48 Energy BESS develops battery energy storage systems (BESS). The company's main service involves storing excess electricity in their BESS assets, which is then sold into the National Grid to meet various electricity demands, helping to balance the peaks and troughs of electricity pricing caused by supply and demand imbalances.

LOWER 48 ENERGY BESS LTD THAILAND

??? Battery Energy Storage Systems (BESS) store excess electricity until sold into the National Grid to meet industrial or domestic electricity demands. Our BESS assets help level out expensive peaks and troughs of electricity pricing caused by supply and demand imbalance.

LONDON ??? Dec. 13, 2023 ??? Castleton Commodities International LLC (CCI) announced today that a subsidiary has acquired a majority stake in Lower 48 Energy BESS Ltd. (L48 Energy), a company that originates, builds, owns and operates large-scale energy storage systems.

Our team is comprised of long-standing energy sector professionals, proven in the development and deployment of large-scale energy projects, energy experts with in-depth knowledge of energy markets and consulting, electrical engineers with demonstrable experience of working in LV/HV network designs.
