

What is luminous 3KW on grid inverter?

Luminous 3kW on grid inverter is a powerful inverter that converts DC electricity into AC electricity efficiently. This type of solar inverters are also known as on grid solar inverter which can work without battery.

Which capacity solar inverter to buy?

Price is most important thing in deciding which capacity solar inverter to buy. Luminous on grid solar inverter range starts from 1kW and it goes up to 50kW. We are providing you best prices for Luminous on grid solar inverter. All prices are negotiable. Special discounts for bulk quantity. Special price for dealers and re-sellers.

What are the different types of luminous solar inverter?

When it comes to the variation of luminous solar inverter, then they can be classified into following three types. Hybrid solar inverter. An on grid solar inverter is also known as grid-tie inverters. These inverters are specially designed to use with on grid solar system.

What is included in luminous on grid Solar System?

Included GST, transportation and Installation. 3kW Luminous on grid solar system is a complete solar COMBO with 9 nos. X 335 watt solar panel, 3kW (single phase) on grid solar inverter, ACDB/DCDB, mounting structure, wires, nut-bolts and other solar accessories that can run basic load of your home, business, school etc.

Is luminous solarverter pro BIS certified?

Luminous Solarverter PRO is BIS certified as per IS/IES Standards. Solarverter range allows smart management of Solar Power, Grid Supply and Battery to deliver uninterrupted power for all electrical applications. Designed for high performance against the typically tough Indian grid conditions. It comes with 2 years* warranty.

What is luminous solarverter pro?

Solarverter PRO comes with proven MPPT Technology which extracts up to 30% more power from the panels. It allows smart management of Solar Power, Grid Supply and Battery to provide uninterrupted power for your use. Luminous Solarverter PRO is BIS certified as per IS/IES Standards.

LUMINOUS ON GRID SOLAR INVERTER PRICE

Estimate your total savings, payments, and total energy usage with our FREE solar calculator. String inverters, also known as central inverters, are the oldest and most common type of solar inverter used today. They work by connecting a string of solar panels to one single inverter, which converts the total DC input into AC output.
