The Registered Agent on file for this company is Kevin Seaman and is located at 3302 Audley #107, Houston, TX 77098. The company's principal address is

ReCo Energy Solutions uses the latest recompression equipment to deliver quicker, more efficient, and more reliable mobile compression services. Our equipment helps directly remove thousands of tons of methane gas and carbon dioxide equivalent emissions. Our team comprises highly skilled pipeline and energy industry experts dedicated to

This project encompasses a variety of sustainable energy solutions, including solar PV, heat pump systems, EV charging, battery storage, and energy management. The images showcase our diverse range of services and successful projects.

In the open air, Reco Glass filters make use of natural wind: on ships, for example, there is less need for energy-intensive fans used in traditional direct air capture technology. Uniquely, the Reco Glass filter uses a dry process, which is more economical than that of other DACs, and the material produced can be used to make low-carbon glass.

ReCo energy solutions Houston, TX employee reviews. Operator in Houston, TX. 3.0. on October 10, 2023. It's okay . The pay is not the best if you don't have experience and the work environment is not too bad. You start off on night shift n move up to the day shift. Not much room to grow I'd say, leadership is tight and not much of a lead

Solution Energie Luxembourg est une filiale de Solution Energie Belgique, une entreprise spécialisée dans les solutions d'énergie renouvelable depuis plus de 10 ans. Nous sommes fiers de proposer une large gamme de produits et services énergétiques pour les particuliers, les entreprises et les collectivités locales.

Discover what ReCo can do for you by looking through our history of case studies. Go back. Low Target Pressure Case Study. Evacuate a 19 mile long 22" OD pipeline at 610 PSIG to an ending pressure of 1 PSIG to prepare for several anomaly dig driven pipe replacements.

Reco Energy Solutions, LLC Overview. Reco Energy Solutions, LLC filed as a Domestic Limited Liability Company (LLC) in the State of Texas on Tuesday, March 1, 2022 and is approximately two years old, according to public records filed with Texas Secretary of State.

This is RECO Incineration. Hydrocarbon energy production is a top contributor to methane emissions, largely during oil and gas extraction. Tackling emissions at this stage is efficient with technology for leak monitoring and proper methane destruction. RECO offers advanced solutions for sites where gas transportation is not feasible

ReCo units moved over 66 MMSCF of natural gas from the line into an in-service line in under 3 days with a final ending pressure of 7 PSIG. Result: Client saved significant money and emissions reporting on this project by avoiding a blowdown or flaring, ???
