

Can M-kopa Solar become a \$1 billion company?

M-Kopa Solar plans to become a \$1 billion company by selling solar panels to rural residents and providing them with credit. Tom Opiyo is the best-performing salesperson at M-Kopa Solar, a Kenyan company.

What is M-kopa Solar?

M-KOPA is an innovative pay-as-you-go solar system launched in East Africa that provides reliable energy to low-income households.

Is M-Kopa a good company?

In the markets where M-Kopa operates--Kenya, Tanzania, and Uganda--the rates it charges are competitive. The interest M-Kopa charges may be high by U.S. or European standards, but the cash price of its products is about 20 percent less than the installment price.

Is M-Kopa a construction company?

Since its commercial launch in October 2012, M-Kopa's Nairobi headquarters has been an active construction site due to its growth.

Why did M-Kopa start selling solar-powered TVs in Kenya?

That same year, M-Kopa introduced solar-powered televisions to the market, selling an impressive 30,000 units in Kenya alone. The company recognized the importance of internet access and aimed to bridge the digital divide by providing connectivity options to its customers.

Did M-Kopa receive a \$19 million investment?

M-Kopa received a \$19 million investment in November. The investment round included \$10 million from Generation Investment Management, a fund co-founded by former U.S. Vice President Al Gore. Other investments came from SolarCity, the biggest U.S. rooftop solar installer, and digital thermostat maker Nest Labs.
