Energy consumption and energy production are visible via a simple and clear visualization. In addition to the distribution of energy, the savings are also shown daily, monthly and yearly. E-Smart makes all energy flows from the power grid ???

Der Energy-Hero (R) steht f?r die neue Generation des ganzheitlichen Energiemanagements. Das innovative System erm?glicht die Maximierung der Energie-Eigenverbrauchsquote. Schon jetzt ???ready for future" ohne zus?tztliche Softwarelizenzen f?r M-TEC Produkte.

Efficient and cost-effective water heating. With a control range of 0 to 9 kW, high solar yields can be utilised for heating and hot water. As a stand-alone device or in conjunction with a heat pump, free solar power can be converted into heat.
