Jonathan Douglas-Smith, Head of Sales for Aerospace at Intelligent Energy, stated, "We are thrilled to showcase the future of clean air travel at the Farnborough International Airshow by unveiling our brand-new IE ???"

Abstract. Intelligent Energy has unveiled a breakthrough in aviation fuel cell technology, launching it's cutting-edge high-temperature IE-FLIGHT??? fuel cell system, based on IE's unique patented cooling technology.. This white paper evaluates the potential of the new IE-FLIGHT PEM fuel cell systems to address the challenge of zero emission flight, and specifically the requirement for

Taking into account the fact that Macao belongs to the demand side of the energy system, she has limited land resources, most of her electricity is purchased from the China Southern Power Grid, as well as other actual situations in the city, the research team has proposed the following four technical pathways for accelerating the progress towards carbon ???

16 ? KULIM KEDAH, Malaysia, Dec. 20, 2024 /PRNewswire/ -- On December 14th, EVE Energy (SZSE: 300014), a globally leading lithium battery company, marked a significant milestone in its global growth

Our headquarters and manufacturing are based in the UK, with our systems being used by our partners and customers worldwide. IE-SOAR. Lightweight hydrogen fuel cells for UAVs. IE-DRIVE. High power fuel cells for automotive applications. IE-POWER. Intelligent Energy Limited is a registered company in England and Wales under Company Number

iN Systems (Macao) Limited (hereafter referred as iNSys), established since July 2000 in Macau, is a local based information technologies consulting company. We focus on serving clients by delivering services and solutions oriented towards client's specific needs, with particular emphasis on developing and integrating information systems, applying technology to enhance business ???

ENDS . For more information, please contact: Hannah Prigg. E: hannah.prigg@groupwhistle T: +447860 864533 . About Intelligent Energy Limited. Intelligent Energy Limited is focused on the development and manufacture of its lightweight hydrogen fuel cell products ranging from 800W to 300kW+ for customers in the automotive, aerospace, ???

The University of Macau (UM) and China Southern Power Grid Co, Ltd (China Southern Power Grid) today (8 September) signed a collaboration agreement online on the establishment of the China Southern Power Grid ??? University of Macau Joint Laboratory of Smart Power and Energy for Carbon Neutrality and held a plaque unveiling ceremony for the laboratory. Through ???

The 10 papers published in this Special Issue provide a comprehensive overview of state-of-art research in smart energy systems. They focus on addressing distributed energy uncertainty, reducing system operational risk, and minimizing carbon emissions to enhance the flexibility and reliability of smart energy systems.

LeapFive Focus on the research and development of edge AI chips based on RISC-V architecture, provide the industrial Internet of Things with a series of chips and platforms that integrate artificial intelligence, security and traceability, and empower the innovative applications of China's digital economy by integrating cross-domain technologies such as artificial ???
