

Who is voltek Energy Sdn Bhd?

VOLTEK ENERGY SDN BHD has been in the engineering and electrical industry since 2019 and involved in solar industry since 2020. VOLTEK is a licensed and registered renewable energy specialist operating in Malaysia. We design, distribute, install and maintain solar energy systems for residential, commercial and industrial properties.

Why should you choose solarvoltech in Penang?

At Solarvoltech, we are committed to providing top-quality solar panels for homes and businesses in Penang. Our mission is to help our customers reduce their carbon footprint and save money on energy costs. We have a team of experienced professionals who are dedicated to delivering personalized solutions for every project.

Who is the best solar panel supplier in Penang?

With over 30 years of experience in the solar industry, Solarvoltech is the most trusted solar panel supplier in Penang. Our team of experts has the knowledge and expertise to design and install solar panels for even the most complex projects. At Solarvoltech, we only use the highest quality solar panels that are built to last.

Who are the best solar installers in Malaysia?

As for the best players in Malaysia, you've got Canadian Solar, Hanwha Q Cells, JA Solar, Jinko, and GCL. They're the go-to brands for many solar installers here. Here's a rough estimate of the standard system cost for landed property in Malaysia. Remember that installation costs also differ based on the factors mentioned above.

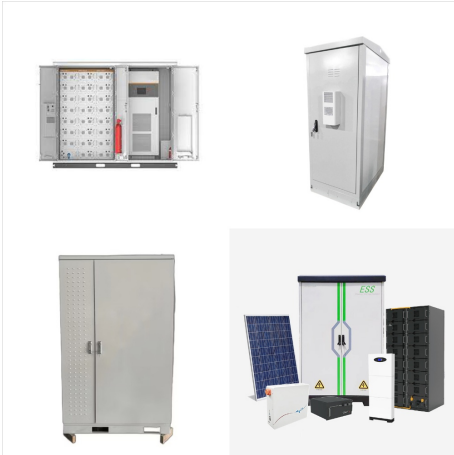

Can solar panels be installed on a roof in Malaysia?

In Malaysia, most roofs are suitable for solar panels, but the type and material of your roof will influence the mounting approach and panel positioning. Common roofing materials include tiles, metal, and asphalt. For roofs that are less accessible, additional scaffolding may be required, potentially affecting your solar panel installation costs.

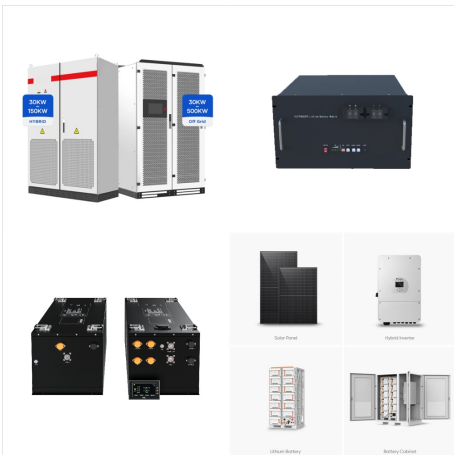

How much do solar panels cost in Malaysia?

Semi-detached Houses: If you've got a semi-detached house, you can go for roughly 16 solar panels or an 8 kWp system to cover an average monthly consumption of 1,080 kWh. That'll set you back around RM28,000,

with an installation area of 32sqm. Bungalows: Now, for bungalows, think big!
