

A 50MW battery energy storage facility being developed by Statera Energy has entered commercial operations in Malmesbury, Wiltshire. Dubbed Minety South Storage 2, the project received funding of around ?86 million from Santander UK and NatWest. On top of this, the project received an additional ?30 million from an accordion facility.

The project is part of a broader solar project eventually including unspecified battery storage capacity. Gambian utility Nawec is seeking proposals for a 50 MW PV facility planned to be deployed

Pivot Power, a subsidiary of EDF Renewables, announced on Tuesday that it has broken ground on a 50MW/100MWh grid-scale battery storage project in the West Midlands region of England. Permit sought for ???

Scotland-based clean energy developer Intelligent Land Investments Group (ILI Group) said on Monday that it has finalised the sale of its 50-MW Fordtown battery storage project located in Kintore, Aberdeenshire.

British utility SSE plc (LON:SSE) has officially launched the construction of a 320-MW battery energy storage system (BESS) in North Yorkshire, to be equipped with the technology of China's Sungrow Power ???

The buyer of the Auchteraw storage project near Fort Augustus, Virmati Energy Ltd, trading as Field, is a recently launched business that aims to build the renewable infrastructure needed to reach net zero starting with battery storage. It has a pipeline of 270 MW of battery projects in exclusivity and intends to have 1.3 GW in operation by

A 50MW battery storage site in Northern Ireland, UK, has been energised by developer Low Carbon and investment fund Gore Street Energy Storage Fund. The lithium-ion project, located at Drumkee, County Tyrone, is being lauded as the country's largest energy storage project and is to serve the Single Electricity Market. It was completed on time

The Salisbury site development follows SSE acquiring the development rights for the 50MW battery storage asset from Harmony Energy in August 2021. Additionally the company acquired its first solar farm in January 2022, taking on the development rights for a 30MW solar farm at Littleton Pastures from Stark Energy.

3 ? The Climate Act targets include a 3,000 MW statewide energy storage goal, which has since been expanded to 6,000 MW by the New York Public Service Commission. Through a 2021 Bulk Storage Request for Proposals, LIPA intends to meet its share of these goals by procuring approximately 175 MW of new bulk energy storage contracts.

A reddit focused on the storage of energy for later use. This includes things like batteries, capacitors, *super*-capacitors, flywheels, air compression, oil compression, mechanical compression, fuel tanks, pumped hydro, thermal storage, electrical storage, chemical storage, thermal storage, etc., but *also* broadens out to utilizing "more-traditional" energy mediums

Building a 50MW Battery Energy Storage System ??? Project Update. In February 2021, SMS began the construction of a 50MW Battery Energy Storage System in Burwell, Cambridgeshire. Due for completion in December 2021, when operation the site will help facilitate greater renewable energy penetration and provide vital services to the National Grid. Take a peek ???

Burges Salmon has advised Engie on its acquisition of a fully permitted 50 MW Battery Storage site in southern Scotland, from a joint venture between ILI Group, Abbey Group, and YOO Energy. The proposed battery facility will be located at Cathkin near East Kilbride. The project is set to be completed, with the battery being energised, by July 2024.

This includes the 250 MW / 250 MWh Torrens Island battery in South Australia and the 50 MW / 50 MWh Broken Hill battery in western NSW which commenced operations in August 2023 and August 2024 respectively, AGL is also building a 500 MW, two-hour duration battery energy storage system at the site of its shuttered Liddell

This addition will bring the utility's total battery energy storage to 400 MW under contract. August 28, 2024 (SAN ANTONIO) ??? CPS Energy, the largest municipally owned electric and natural gas utility in the United States, has entered into two storage capacity agreements (SCAs) with Eolian L.P. (Eolian) for a total of 350 megawatts (MW) of battery energy storage, ???

RWE Renewables Europe & Australia has been awarded in New South Wales competitive tender process for the development of a 50 MW/400 MWh battery energy storage project located next to the 249 MWac Limondale Solar Farm. The Limondale Solar ???

Lilongwe, Malawi | 25 th November 2024 ??? The Global Energy Alliance for People and Planet (GEAPP) and the Government of Malawi have officially launched the construction of a 20 MW battery energy storage system (BESS) at the Kanengo substation in Malawi's capital city, Lilongwe. This is GEAPP's first BESS project in Africa. GEAPP is providing up to \$20 million in ???

The Kemsley battery storage system is the second to go live as part of Pivot Power's plans to deploy up to 40 similar sites throughout the UK, providing up to 2GW of flexible capacity. The company's largest offshore wind farm is currently being built in Scotland and the 450 MW Neart na Gaoithe project will be ready in 2023. It is

The company ??? initially called Virmati Energy ??? has a pipeline of a further 270MW of battery storage project under exclusivity, as well as plans for 1.3GW of operational capacity by 2024. Amit Gudka, founder of Field, said it was exciting to be growing the company's pipeline of battery storage sites.

The first Capacity Investment Scheme (CIS) tender round in Australia successfully awarded 3.5GWh of co-located battery energy storage systems (BESS) as renewables-plus-storage projects. Most Popular Aypa Power closes US\$398 million financing for 250MW/1,000MWh Arizona BESS

A 100 MW/100 MWh battery storage facility in the UK has been completed and connected to the grid, technology supplier Sungrow Power Supply Co Ltd (SHE:300274) said on Thursday. Planning permission has been ???

ENGIE has gained another 50MW battery storage site in Scotland from developers Hive Energy, EcoDev Group, Sirius Group, and Ethical Power. The announcement follows the French energy company recently acquiring another 50MW energy storage site in Scotland from Intelligent Land Investors (ILI) Group, Abbey Group and YOO Energy in ???

ILI Group has announced that Section 36 planning consent has been granted for its 100 MW Fflemlyland battery energy storage system project in North Ayrshire by Scottish Ministers. Highlands: 50 MW capacity. The approvals highlight ILI Group's pivotal role in Scotland's renewable energy journey. BESS are essential for modern energy grids

Australian firm Resolute Mining has signed an agreement with Africa-focused power developer Ignite Energy to set up a 40MW hybrid solar, battery and heavy fuel oil (HFO) plant at its Syama Gold Mine in Mali, ???

New York-listed miner Barrick Gold, one of Africa's largest commercial and industrial (C& I) offtakers, has added solar PV capacity and battery storage to its Loulo-Gounkoto gold mine in western Mali and has ???

Green Turtle, situated on the Rotem industrial site in Belgium's northwestern Limburg province, was originally planned as a 600 MW battery storage park for renewable energy. For technical optimization, client GIGA Storage Belgium opted to scale up to a capacity of 700MW. This corresponds to the average energy consumption of 385,000 households

The Salisbury site development follows SSE acquiring the development rights for the 50MW battery storage asset from Harmony Energy in August 2021. Additionally the company acquired its first solar farm in January ???

This confidential project was the client's first stand-alone battery energy storage system (BESS) initiative in the state, contributing approximately 50 MW of capacity to the power grid. Bowman took on a new role with the client, employing a program approach to navigate the project's complexities. Services provided by Bowman included title policy research and mineral [???

The 50 megawatt (MW) system is one of the largest battery sites to be energised and connected to National Grid's transmission network so far SMS recently commenced construction on two more 50MW sites in Suffolk ???
