

Who is building a 200 MW solar power plant in Mali?

Construction of a 200-MW solar power plant in Mali was officially launched on Friday, Mali's national broadcaster ORTM reported. The project, worth over USD 200 million (EUR 184m), is a partnership between Mali and Russia. It will be built by Russian company Novawind, a division of Rosatom, the Russian nuclear corporation.

How much electricity can a solar power plant supply in Mali?

Once operational, the plant will be capable of supplying 10% of Mali's electricity. A day before work was due to start on the Sanankoroba solar power plant, Mali's Head of State Assimi Goita met NovaWind's Managing Director Grigory Nazarov to review progress on the project.

Is Mali ready for a new solar power plant?

Mali's transitional government has been working hard in recent weeks to roll out this solution across the country. On Friday 24 May 2024, Transitional President Assimi Goita travelled to Sanankoroba in the Kati cercle to lay the foundation stone for a new photovoltaic solar power plant.

Which company is constructing a new energy plant in Mali?

The Russian company NovaWind, a subsidiary of Rosatom, is constructing the plant, marking a significant step in the country's energy sector. In recent weeks, Mali's transitional government has intensified efforts to implement this solution nationwide.

Where is the first solar panel installed in Mali?

Mali's Transitional President, Colonel Assimi Goita, installs the first solar panel for the project in Sanankoroba in the Koulikoro region. Image Source: Office de Radio et Television du Mali (ORTM) Construction has officially begun on a 200MW solar power plant in Mali, which is being built by Russian company Novawind, a subsidiary of Rosatom.

What is a Russian nuclear project in Mali?

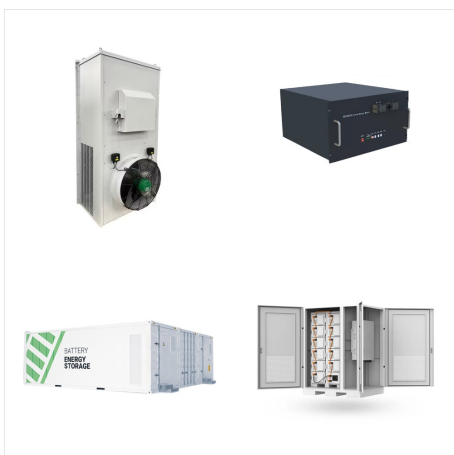

The project, worth over USD 200 million (EUR 184m), is a partnership between Mali and Russia. It will be built by Russian company Novawind, a division of Rosatom, the Russian nuclear corporation. The plant is located in Sanankoroba in the Koulikoro region of southern Mali and will improve electricity supply in the West African state.

By partnering with NovaWind, a Russian company specializing in renewable energy, Mali is embarking on the construction of a 200 MW photovoltaic solar power plant. This initiative marks a significant milestone in ???
