Google Maps provides users with detailed maps of locations worldwide. You can search for specific addresses, landmarks, businesses, or points of interest, and it will display relevant information and locations on the map. Google Maps is available as a website and as a mobile application for iOS and Android devices.

What is Google Maps Live View?

Last year,Google introduced Live View to Maps,overlaying your surroundings with augmented reality. Live View relies on machine learning,smartphone sensors and the real-world imagery provided by the Google Maps Street View feature. The new feature helps you figure out which way to go when starting a walking route.
