

Does smartflower work in France?

Additionally, the SmartFlower can work in virtually any climate, as it can work at any temperature between -20°C and 50°C. It will thus be usable anywhere in France, at any time of year. The first model introduced was SmartFlower POP.

How much does a smartflower cost?

The Smartflower Plus, which includes an 11-kilowatt battery, is available for \$65,500, not including shipping and installation fees. Smartflower has a flower-like design that tracks the sun, offers on-grid and off-grid setups, and self-cleaning panels. See if Smartflower is right for you.

Is smartflower still available in Europe?

Since the Austrian company SmartFlower Energy went bankrupt, it is no longer purchasable in Europe. This said, an equivalent model simply named "SmartFlower" is still commercialised in the US. This model is very similar to the POP version, aside it being slightly more powerful (205 kWc) and available in fewer colours (white, grey, green and blue).

How much does a smartflower panel cost?

Smartflower closes when the sun goes down. How much do Smartflower panels cost? The base Smartflower itself is \$39,950 plus installation and shipping charges, and the Smartflower Plus is \$65,500 plus shipping and installation.

How much energy does a smartflower provide?

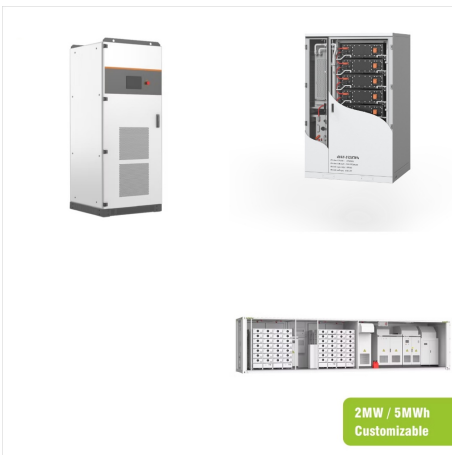

A SmartFlower can deliver enough energy to ensure electric self-consumption of a family of 4, excluding heating and hot water. Such a household living in a 100m² house should easily fulfil its electricity needs (around 2,500 kWh/year) if it uses natural gas for heating and cooking, and owns a SmartFlower +Plus.

MARTINIQUE SMARTFLOWER

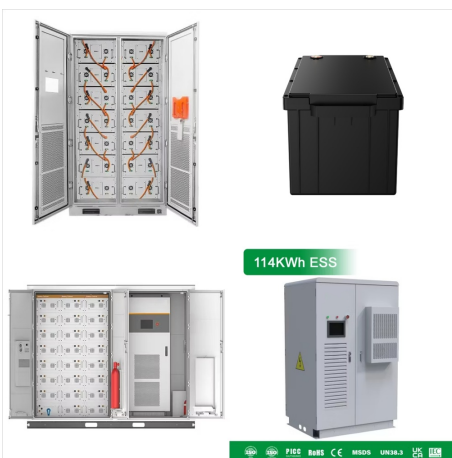

PRICE EUROPE

Le principal point noir de la SmartFlower est son prix : malgré le très bon rendement de cet engin, son tarif est presque deux fois supérieur à ceux de panneaux solaires à puissance égale. Le prix d'une fleur solaire est d'environ 20 ???

En 2018, la SmartFlower n'est plus disponible en France ou en Europe, ni distribuée par EDF ENR via son offre Mon Soleil et Moi. Seuls les modèles de la division américaine SmartFlower Solar restent disponibles pour le marché américain.

Before applying for all incentives and tax credits, the SmartFlower solar panel system ranges in price from \$25,000 to \$30,000 with the average cost to install at \$27,000. There are two models that you can choose from, and this is why the price can vary.

MARTINIQUE SMARTFLOWER

PRICE EUROPE

According to Smartflower's website, the average middle European household uses approximately 3,500 kilowatt-hours (kWh) each year, and the product is intended to match that level of electricity demand. Depending on where you live, a Smartflower produces anywhere from 3,400 to 6,200 kWh annually.
