

What will TotalEnergies do in New Caledonia?

Noumea, December 20, 2021 - TotalEnergies will develop a series of photovoltaic and energy storage projects in New Caledonia in order to deliver decarbonized electricity via a 25-year renewable power purchase agreement (PPA) for the industrial operations of mining and metallurgy consortium Prony Resources New Caledonia.

Will TotalEnergies build a 160-MW solar project in New Caledonia?

TotalEnergies will use its expertise in solar projects to build a 160-MW solar project, with the first phase of 30 MW expected to come online by 2023. Once this project is fully operational, it will be sufficient to meet 67% energy needs of Prony Resources New Caledonia and significantly lower carbon emissions.

What will Prony Resources New Caledonia do with solar energy?

Per a 25-year renewable power purchase agreement, the clean energy produced from the solar projects will supply power to industrial operations of Prony Resources New Caledonia. TotalEnergies will use its expertise in solar projects to build a 160-MW solar project, with the first phase of 30 MW expected to come online by 2023.

Why do we support New Caledonia's energy transition?

We are very proud to support their energy transition, and that of New Caledonia," said Thierry Muller, CEO of TotalEnergies Renewables France. "As industrial firms, we think and act responsibly. Our two companies are committed to protecting natural resources and biodiversity, and to improving the situation of local communities.

How does Prony Resources contribute to New Caledonia's development?

A participant in the global energy transition, Prony Resources sustainably contributes to New Caledonia's development by processing its nickel and cobalt resources in accordance with the highest industrial and environmental standards.

MAXWELL ENERGY NEW CALEDONIA

Guangzhou Maxwell New Energy Technology Co., Ltd. (hereinafter referred to as "Maxwell") is a photovoltaic new energy enterprise that integrates research and development, production, sales, engineering design, installation guidance, and ???

New Caledonia is a French territory made up of a group of islands and archipelagoes of Oceania, located in the Coral Sea and the South Pacific Ocean. It has a wide lagoon often considered "the most beautiful lagoon in the world". ???

MAXWELL ENERGY NEW CALEDONIA

In 2022, New Caledonia's electricity consumption was heavily reliant on fossil fuels, making up more than 80% of the total energy mix. Coal was the largest contributor within this category, accounting for about half of the total electricity use. On the other hand, low-carbon or clean energy sources played a smaller role, constituting just under 20% of the electricity consumption.

Founded in 2016, Maxwell Energy Systems (MESPL) is a subsidiary of ION Energy Inc, an energy tech startup that builds advanced electronics and software for new energy assets. Thursday, May 19, 2022: It's an exciting day for all of us at ION Energy!
