

In Mayotte, Albioma operates a photovoltaic fleet with an installed capacity of 15,3 MW. All power plants are sited in locations free from conflicts of use, including the one above Mamoudzou market, which features 725 KW of solar panels, making it the Group's most powerful rooftop plant.

French renewable power producer and developer Akuo has officially opened a 1.2-MW solar park equipped with an integrated energy storage facility on the island of Mayotte in the Indian Ocean. The Hamaha photovoltaic ???

French renewable power producer and developer Akuo has officially opened a 1.2-MW solar park equipped with an integrated energy storage facility on the island of Mayotte in the Indian Ocean. The Hamaha photovoltaic (PV) plant will support the archipelago's goals of adding 60 MW of renewable energy capacity by 2028 to the 25 MW already

French renewable energy producer Albioma SA announced that a 7.4-MW/14.9-MWh battery storage project was selected for installation in the French department of Mayotte in the Indian Ocean. The Group, which is established in Overseas France, Mauritius and Brazil, has developed a unique partnership for 25 years with the sugar industry, to produce

The Albioma-Mayotte Battery Energy Storage System is being developed by Albioma. The key applications of the project are renewable energy integration, electric energy time shift and grid support services.

Experience clean energy with Akuo Energy's 1.2MW Hamaha Solar Park in Mayotte, a French archipelago. Offsetting 1,100 tonnes of CO₂, the facility provides energy to 1,700 people and a 3.5MWh battery storage system for peak demand.

Featuring Lithium-ion batteries, the plant's storage mechanism stabilizes the grid by smoothing out solar production and injecting stored energy during peak demand, facilitating Mayotte's transition to a more stable and renewable energy grid.

La solution innovante contribue à développer le potentiel solaire de Mayotte tout en préservant ses terres fertiles. Seulement voilà, elle nécessite un terrain sans relief.

French renewable power producer and developer Akuo has officially opened a 1.2-MW solar park equipped with an integrated energy storage facility on the island of Mayotte in the Indian Ocean.

Sun Water Fire's innovative technology offers a unique opportunity for Mayotte to achieve energy independence, enhance water management, and tackle climate adaptation in a transformative way
