

They come with MC4 connectors so they can easily be wired in series, or in parallel using our Y splitters and/or cable extensions. Having a Vmp of 18 volts, they can be used with either PWM or MPPT charge controllers. Product Features and Benefits: 1. Higher energy yield-Outstanding performance at low irradiance-Maximum energy yield at low NOCT 2.

2,000W Continuous (4,000W Peak) Pure Sine Wave (also known as True Sine Wave) inverters generate an output voltage wave form that has a very low harmonic distortion same as utility-supplied electricity as found in your home socket outlets. This means they are more suited for sensitive electronic equipment, allowing motors to run faster, quieter and cooler, preventing ???

Melitech Energy offering renewable energy solutions such as solar panels, charge controllers, inverters and accessories for off grid applications like boats, caravans, billboards as well as for remote areas with power requirements for lighting, farming, monitoring or telecommunications purposes.
