

Who is Merlin energy resources?

Merlin Energy Resources is an Employee-Owned geoscience and data management consultancy. The company started with a focus on oil and gas but now has a much broader reach. In addition to supporting our traditional market, we use our geoscience and geochemistry skills to help clients meet their net-zero commitments.

How does the geography of Micronesia affect electricity?

The single island of Kosrae has an electrification rate of 98%, while Chuuk, spread across seven major island groups, achieves a rate of 26%.<sup>5</sup> Aside from limiting access to electricity, the geography of the Federated States of Micronesia has several other adverse effects on utility operations.

How many utilities do the Federated States of Micronesia have?

Because the Federated States of Micronesia is so geographically dispersed, three of the four utilities must serve a populous core island or group of islands as well as numerous remote islands; the Kosrae Utility Authority is the only utility that serves a single island. Often, the large distances and small populations on the outer

What are the guiding principles for energy development in Micronesia?

In addition, the policy establishes the following guiding principles for energy development in the Federated States of Micronesia: (1) the spread of benefits to disadvantaged communities, (2) increased public awareness and local capacity, (3) private sector involvement, and (4) community solutions.

What can Merlin Geoscience do for You?

Merlin Geoscience can support your workflows from exploration to production. We focus on providing pragmatic advice to our clients enabling them to add value to their business. Using our specialist skills we can also support a wider range of projects including the energy transition to more renewable sources.

Does Micronesia have a state-owned utility company?

state-owned electric utility company. Because the Federated States of Micronesia is so geographically dispersed, three of the four utilities must serve a populous core island or group of islands as well as numerous remote islands; the Kosrae Utility Authority is the only utility that serves a single island.
