

Standby power for Bahrain's tallest building, the 140 m high National Bank of Bahrain headquarters, will be provided by two Cummins 1374 kVA gensets, which will be Bahrain's largest standby installation in a commercial building. The gensets have been installed in two purpose-built plantrooms on the fifth floor of the 25 storey building.

With over 60 years of experience, Camfil Power
Systems is a data-driven organization that
specializes in air inlet and acoustical systems for
turbomachinery, including gas turbines, generators,
industrial air compressors and diesel engines.

Modern Power Systems provides uniquely in-depth
technical coverage of the electricity generation
business, from advanced wind turbines to zero
emissions coal technology. We cover all the power
plant types, including gas-fired generation turbines,
coal, nuclear, renewables, diesel engines,
distributed generation, cogeneration, biomass and
power

The Kingdom of Bahrain aims to reduce emissions by 30% by 2035 and achieve net-zero emissions by 2060, as outlined in its National Energy Strategy. Masdar has developed a number of landmark wind farms currently in operation around the world, including the 400 MW Dumat Al Jandal wind farm, the largest in the Middle East and the first in Saudi

MAN Energy Solutions enables its customers to achieve sustainable value creation in the transition towards a carbon neutral future. Addressing tomorrow's challenges within the marine, energy and industrial sectors, we improve efficiency and performance at a systemic level.

The power and water output from the facility will be sold to the Ministry of Electricity and Water (MEW) under a 20-year Power and Water Purchase Agreement (PWPA). The project has been awarded on a build, own, operate basis, 40% to International Power 30% to Suez Energy International and 30% to Sumitomo.

Dr Abdulhussain Mirza, Bahrain's energy minister,
has stated that although the Kingdom's government
had been exploring nuclear energy as an alternative
power source, it has now reconsidered and
abandoned the idea following the earthquake,
tsunami and subsequent explosion that crippled
Japan's Fukushima Daiichi nuclear plant last year.
