

Who is mole energy?

When we founded Mole Energy in 2010, we were driven by our shared passion for renewable energy and a commitment to building a company rooted in integrity and expertise. From the outset, we knew we wanted to make a positive impact on the environment and work tirelessly to do right by our customers and the planet.

Why should you choose mole energy?

Today, we're extremely proud of this DNA that runs through Mole Energy, and we know that our customers and team feel the same way. Mole Energy delivered a first-class service from start to finish. They completed the installation in four hours and their team were polite and respectful.

How long does it take mole energy to install solar panels?

Mole Energy delivered a first-class service from start to finish. They completed the installation in four hours and their team were polite and respectful. Our solar panels look really smart and we're constantly checking the App to see how much energy they're generating. Speak to our team and start saving on energy in under 6 weeks.

Mole Energy Ltd. Mole Energy ??? helping homes and businesses achieve energy self-sufficiency. Solar panels and battery storage are fantastic ways to lower your energy bill and cut your carbon footprint. We take the time to understand your project, ensuring that our installations are bespoke, flexible and cost-effective. Your project is unique.

Instead, any excess power generated can be  
utilised to help meet your energy needs, manage  
additional consumption and improve self-reliance;  
particularly in the event of a power cut. For  
additional peace of mind, some of our batteries  
have a "reserve" setting, which ensures there will  
always be stored power within your battery,  
available

Today's technology is cost-effective, simple to install  
and helps both planet and pocket. Helping the  
planet: Over 25 years the average home solar  
system offsets the same amount of CO2 as  
recycling 16 tonnes of domestic waste or driving a  
family car for 112,745 miles.
