

How does momentum solar work?

It works with solar panel manufacturers to provide a solution for your home, designs the layout and installs the system for you. The company also provides financing options, including loans and leases. Momentum Solar offers solar panels and equipment from a variety of brands, but it only installs Tier 1 solar panels.

Who is momentum solar?

Momentum Solar is an all-inclusive solar power system provider. It offers a variety of solar panel brands for every type of customer. How does Momentum Solar work? Momentum Solar custom-designs and installs each customer's system, handles all permitting and paperwork and activates the system.

Does momentum solar offer a PPA?

With a PPA, no upfront investment is required, but you'll be able to lock in a lower rate of electricity for the length of your agreement. Currently, Duke Energy is the only utility provider offering a PPA in Florida. Momentum Solar is able to coordinate a PPA with Duke Energy for customers who are interested in this option.

What financing options does momentum solar offer?

Momentum Solar offers customers four financing options: purchase, loan, lease and power purchase agreement (PPA). Purchase: You own your solar panel system and can see immediate monthly savings on your energy bill. Loan: Customers borrow money to buy the solar panels and receive the power produced.

Does momentum solar offer storage options?

Yes, Momentum Solar offers storage options through partnership with Enphase. Equipment options include the Encharge 10, Encharge 3 and Enpower Smart Switch. How long do the solar power systems last? In general, solar power systems last between 25 and 30 years. With proper maintenance, these systems may last longer.

How long does it take to install momentum solar?

Installation: The formal solar installation process takes approximately four to eight hours. It includes a shade assessment and a full demonstration of how to start and shut down your new system. Activation: Momentum
