

Does Montenegro have a national energy and climate plan?

Montenegro is still finalizing its draft National Energy and Climate Plan (NECP). Montenegro has not defined the 2030 climate target in its national legislation, nor in the draft NECP. It should align with the 2030 targets set by the Energy Community. There is a legal basis for the national inventory system.

Does Montenegro have an energy efficient home?

In 2023, the project Energy Efficient Home continued to support households to purchase heat pumps with interest-free loans. Montenegro is still finalizing its draft NECP, which must harmonize the 2030 energy efficiency targets with the 2030 targets set by the Energy Community.

Does Montenegro have a gas market?

Montenegro does not have a gas market. REMIT Regulation (EU) 1227/2011 is in place. Despite the non-existing gas market, Montenegro adopted the supply rules for natural gas. Initially scheduled for 2019, the adoption of the new Law on Cross-Border Energy Infrastructure projects, intended to transpose Regulation (EU) 347/2013 is pending.

Which energy projects have been subjected to an EIA in Montenegro?

Montenegro has not provided a list of energy projects that underwent screening and were subjected to an EIA. The development of the EIA, which should include an appropriate assessment for the Komarnica hydropower project, located within a candidate Emerald Site and the Dragijevica and Komarnica Nature Park, was delayed.

Is Montenegro engaged in a cross-border dialogue with Bosnia and Herzegovina?

Montenegro actively engaged in the cross-border dialogue with Bosnia and Herzegovina regarding the transboundary impacts of the Buk Bijela hydropower project, facilitated by the Energy Community Secretariat.

For these projects, RegenCo has partnered with digital twinning platform Agronomeye to collect data across more than one million hectares of farmland, measuring the precise height and diameter of over 30 million trees, in order to rigorously baseline and measure carbon sequestered.
