

What is a Montessori inspired Solar System printable pack?

The Montessori-Inspired Solar System Printable Pack has everything you need for studying the planets! It contains materials for all areas of the classroom and would make a fabulous preceding unit to a Montessori continent study. Printing out those planet book-making printables NOW!

How can Montessori teach a child about the Solar System?

Although the solar system falls into the 'cultural and science' area of the Montessori curriculum, it is a theme that applies to other areas of learning. For example, you can include math by offering a child to count the planets from Mercury to Neptune. You can also simulate a rocket launch and count backward from ten to one.

What is included in the Montessori-inspired space exploration printable pack?

Plus there is a *BONUS* printable pack: The Montessori-Inspired Space Exploration Printable Pack contains materials for learning about the people who studied the solar system throughout history as well as all of the vehicles used for space travel! You can find these printable packs [HERE](#). Loading...
