The Montserrat #RESEMBID efficient-energy
projects are now extended until December 2024!
But before we dive into the future, let's take a
moment to celebrate our achievements from 2023 to
the present.

Energy-efficient equipment. An energy and carbon manager should determine which energy-efficient solutions and products are available and suitable for their organisation, the potential for improvements and what an organisation can afford. For example, heating consumes large amounts of energy in non-domestic (commercial, public and industrial

The Energy Department within the Ministry of Communications Works Labour and Energy is thrilled to announce the extension of two pivotal energy efficient projects: The Energy Efficient Lighting and Environmentally Friendly Lighting Disposal on Montserrat, and the Post-COVID Cost Reduction through Energy Efficiency, now extended until December 2024.
