Standard NM CEI 61427-1 regulates the general conditions applying to the battery storage for renewable energy, NM EN 12977-3 regulates the performance testing methods applying to the storage installations for water solar heating, and NM EN 12977-4 regulates the conditions applying to the combined storage methods for solar heating.

Equipped with recycled aluminium as a storage medium, the system is said to be free from rare minerals, ensuring no reduced capacity over time. The company noted that its energy storage system is scalable from 100kW to 100MW, filling a void in the market and moving closer to providing sustainable and affordable energy for everyone.
