Solar Generator 300 Plus offers long-lasting performance with a durable LiFePO4 battery, fast one-hour charging, diverse charging ports, superior safety features, and an extended 5-year warranty. With Ultra-lightweight Solar Panel and a power station, you'll have infinite power for all your outdoor adventure.

For solar charging, you need a special solar adapter cable that some manufacturers include in the solar generator kit. An average solar charging time is around 5 hours, but large generators like the Renogy Lycan 5000 and the Bluetti EP500 have a dual-charging mode which lets you charge from the grid and solar at the same time.
