

heaters, photovoltaic panels, roof thermal insulation material or double glazed windows or doors approved by the Malta Resources Authority as eligible for the scheme, meeting the requirements listed in Schedule I to this Government Notice, and which are purchased from Malta on or after the effective date, till the duration of the scheme;

Malta Resources Authority . 6 In addition to the above schemes, in July the Authority launched the 2015 Photovoltaic (PV) Scheme. Financial Standing . Up to 31. st. July 2015, the Authority strengthened its balance sheet and managed to build up ???

Solar panels or photovoltaic panels are a fantastic investment for homes and businesses in Malta. With more than 300 days of sunshine every year, Malta is the perfect place to use solar energy. By installing solar panels, you can lower your electricity bills and help create a greener, more sustainable future.

This is the annual report of the Malta Resources Authority, prepared in accordance with Article 24 of the Malta Resources Act (Chapter 423 of the Laws of Malta). This report provides an overview of the activities of the Authority during the financial year 1 January, 2014, to 31 December, 2014. **KEY REGULATORY ISSUES DURING 2014**

The schemes presented will include battery ready PV systems with a Feed-In Tariff of 10c5/kWh for 20 years and a PV grant of ???3,000 (capped at 50% of Capex). Other packages include the PV system with battery storage. Users will again benefit from a Feed In Tariff of 10c5/kWh for 20 years, whilst getting a PV grant of ???3,000 max (capped at

A feed-in tariff is paid per kWh of electricity generated and exported to the grid by solar PV installations with a capacity of less than 400kWp, installed in residential or domestic premises, ???
