

Who is Aukera energy?

Image: Andreas G&#252;cklhorn (unsplash). AtlasInvest backed Aukera Energy has announced plans to deliver 2.7GW of renewable energy projects across Europe. The new company is to focus initially on the UK, as well as Italy, Germany, Romania and Poland, and has already secured more than 1GW of solar and onshore wind projects.

Who manages Myanmar's energy sector?

Myanmar's energy sector is managed by the Ministry of Electric Power(MOEP) and the Ministry of Energy (MOE),which together account for over one-third of public sector revenue. Before May 2022,the two ministries operated under one single Ministry of Electricity and Energy (MOEE).

How can Myanmar improve its power system?

Rebuilding Myanmar's power system will require establishing trust to develop the power sector. Developing solar PVcan add incremental generating capacity in a relatively fast manner.

Does Myanmar have a power supply gap?

Myanmar's power sector will likely continue to experience significant challenges. To sustain the current level of power supply would require adding 300-500 MW every year until 2030. Scenario analysis on the power supply-demand gap illustrates that available generating capacity is projected to not meet the growing demand.

What are the key challenges in Myanmar's power sector?

Key Challenges in the Power Sector Myanmar's power sector expanded rapidly during the past decade, relying on natural gas and hydropower to meet fast-growing electricity demands. The total installed generating capacity increased from about 2,800 MW in 2010 to 7,100 MW in 2022.

Why are foreign investors leaving the energy sector in Myanmar?

Due to political and economic instability and international sanctionsin Myanmar,many foreign investors have left the energy sector. Macroeconomic slowdown and depreciation of the local currency has also put strong pressure on financial performance of the sector.

Aukera is a renewable energy company focused on leading the global transition to clean energy across Europe. We are dedicated to making a positive contribution through the creation of long-term value for all our stakeholders on a socially and environmentally sustainable basis.

Myanmar: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across ???

We develop, invest in, and operate grid scale renewable energy assets. By approaching every project in a collaborative way, we offer bespoke energy solutions that deliver the best outcomes for our partners, communities, and the environment.

Aukera Energy, the new development platform backed by AtlasInvest, has announced plans to deliver 2700MW of new renewables projects across Europe by the end of 2022. Already fully funded, Aukera will focus ???
