

Is there solar power in Myanmar?

Myanmar has high solar irradiation levels in many areas, but no large-scale solar power systems have been installed due to the largely mountainous terrain, protected areas, and limited grid system. Solar power is currently an option only for rural and off-grid applications in Myanmar.

What is the Ashdam Solar Pay Small Small Scheme?

The Ashdam Solar Pay Small Small Scheme removes the barrier of non-affordable Solar and Inverter Systems for qualified individuals and/or businesses through the introduction of up to 1 year payment plan for Solar and Inverter solutions designed to create easier and effective access to clean and reliable energy with quality products/services.

How does a solar installation plan work?

With a minimum down payment of 30% of the installation plan cost, the balance payment is spread over up to 1 year with a monthly interest range of 1.6% to 2% on the financed sum, the Solar or Inverter system is installed. All products in the installed plan enjoy manufacturers' warranty of between 1 - 25 years.

Loan Application: Customers choose a solar system, then apply for financing through a participating bank. Credit Assessment: The bank assesses the applicant's creditworthiness before approving the loan. System Installation: Once financing is approved, the bank collaborates with a certified installer to set up the solar system.
