NASA JPL SOLAR SYSTEM AMBASSADOR

Michael is an active NASA/JPL Solar System Ambassador who regularly participates in mission and program trainings offered by the Jet Propulsion Laboratory's Office of Communication and Education. He loves to share the information he's learned with a varied and diverse public audience. This past year Michael reached those interested in NASA

NASA's Jet Propulsion Laboratory, Pasadena, Calif., has chosen the first group of Solar System Ambassadors for the new millennium, 203 volunteers representing 48 states. "The program is a great way to reach people in areas that JPL just doesn't normally get to," said JPL's Kay Ferrari, program coordinator.

Sharife has been selected to participate in 7 NASA Social events. She also manages the social media accounts for her adopted greyhounds Anubis and Cosmos to an audience of 25,000+ people worldwide. Sharife is an amateur astronomer, Divemaster scuba diver, space educator, animal lover, and visual artist.

The Solar System Ambassador Program is a
volunteer initiative managed by JPL where
individuals share the latest updates from scientists
and engineers working at the leading edge of
NASA's solar system exploration. Proctor, who is a
volunteer in the program, took her Solar System
Ambassador patch with her when she piloted the
first all-civilian mission to orbit Earth in September
2021.

NASA JPL SOLAR SYSTEM AMBASSADOR

Mark joined the NASA/JPL Solar System Ambassador program in 2019 in Iowa, where he successfully planned and implemented dozens of community-based events. In 2023, Mark transitioned to Kansas, where he currently teaches Space Science and is the Director of the Peterson Planetarium and the Science and Math Education Center at Emporia State

NASA's Solar System Ambassadors Program is celebrating its 25th anniversary in Fall 2022. Rachel Kronyak, left, is a former Solar System Ambassador who works as an operations systems engineer at NASA's Jet Propulsion Laboratory (JPL). To her right is Laura Jean Checki, a Solar System Ambassador and Rachel's mentor.

As a NASA / JPL Solar System Ambassador Volunteer, he has hosted presentations and events in and around Gwinnett County. In the course of Johnathan's training, he has acquired over twenty NASA Education Certifications. He also holds Space Science Certifications from the University of Houston, the University of Edinburgh, and Arizona State

NASA JPL SOLAR SYSTEM AMBASSADOR

He serves as a board member of the Warren Astronomical Society and a volunteer NASA/JPL Solar System Ambassador. In recent years, Bob has been increasing his efforts in Astronomy Outreach and lecturing about space science. He is determined to improve Astronomy education in Michigan, and throughout the United States.
