

What can I do to explore the Solar System?

Help the big antennas gather data from the spacecraft. Build a model spacecraft to explore the solar system! Paper models of your favorite solar system explorers. This link takes you away from NASA Space Place.

What planets are in the Solar System?

The Solar System The Sun Mercury Venus Earth The Moon Mars Jupiter Saturn Uranus Neptune Pluto&Dwarf Planets Asteroids,Comets & Meteors The Kuiper Belt The Oort Cloud Skywatching The Universe Exoplanets

What can you do with eyes on the Solar System?

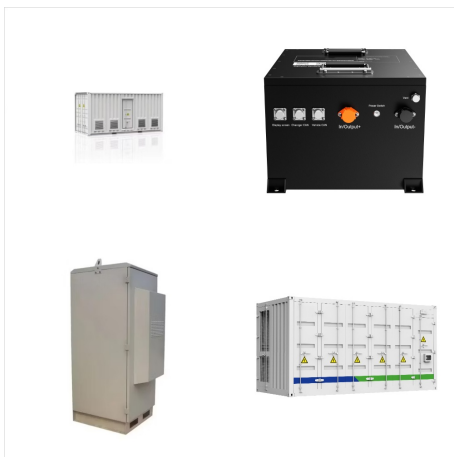

Eyes on the Solar System Explore planets,their moons,asteroids,comets and the spacecraft exploring them. In this interactive,you can also fast-forward or rewind time,from 1950 to 2050. Start Exploring Eyes on Asteroids

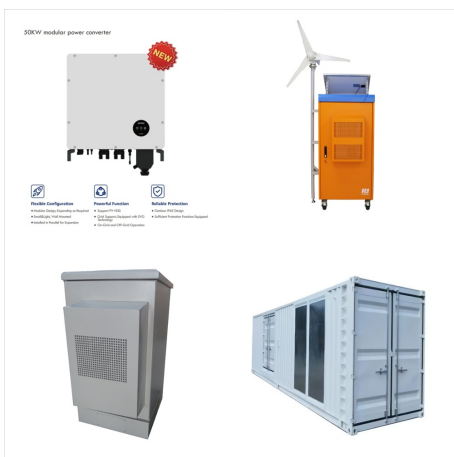

Final Venus Flyby for NASA's Parker Solar Probe
Queues Closest Sun Pass. article 18 hours ago.
Highlights. Play NASA Game. Back to search page
Audience. Grades K-4, Grades 5-8. Subject.
Education, Space Science, Solar System and Stars.
Type. Play and Learn, Games. Students can
develop their pattern matching skills in this game
about

NASA provides a safe place for children to play games as they learn about NASA and its missions. NASA encourages you to visit NASA Kids" Club and use its games and activities to inspire the next generation. On this site, you will find games of various skill levels for children pre-K through grade 4.

In this game, you'll lead a mission to explore some of the most interesting environments in our solar system including the Moon, Mars, and Jupiter's moon Europa. Before getting started, read on to learn about some of the current and ???

? Can you find all the NASA and space-themed hidden objects? Earth. Sun. Solar System. Universe. Science and Tech. Educators. Color Your Universe: Find the Hidden Objects. Great work finding all the hidden objects! Want to learn more about some of the things you found? Games Crafts Activities Videos Glossary Mystery About Us

The solar system has one star, eight planets, five dwarf planets, at least 290 moons, more than 1.3 million asteroids, and about 3,900 comets. Skip to main content . NASA's Europa Clipper is the first mission designed to conduct a detailed science investigation of Jupiter's moon Europa. The spacecraft launched Oct. 14, 2024.

About the game. In this game you will send information, or data, back to Earth using lasers. You will use mirrors to move the laser and avoid obstacles to get the data back to Earth. Each level has new challenges and your ultimate goal is to build a communication network and synchronize, or match, the time on atomic clocks. About the mission

Only the fifth NASA rover to land on Mars, Perseverance is building on the work and scientific discoveries of its predecessors by searching for evidence of ancient microbial life on the Red Planet. In the near future, NASA plans to take its search for life even farther into the solar system to Jupiter's ocean moon Europa. This small moon

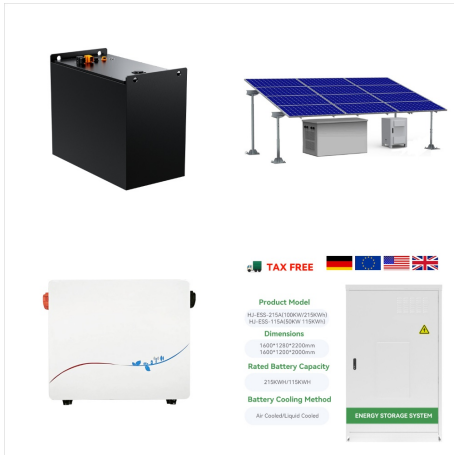

Eyes on the Solar System. This simulated live view of the solar system allows you to explore the planets, their moons, asteroids, comets and the spacecraft interacting with them in 3D. You can also fast-forward or rewind time, and explore the solar system as it looked from 1950 to 2050, complete with past and future NASA missions.

A space for children to play games as they learn about NASA and its missions. Here, you will find games of various skill levels for children K-4. Visit Website. Experience Earth, our solar system, nearby asteroids, the universe, and the spacecraft exploring them with immersive real-time 3D web-based apps for Mac, PC, and mobile devices.

Playing Hints Be sure to pay attention as you go ??? the information contained in each level will help you solve the puzzles in the next level. This game is best suited for teens and interested adults. Minimum Screen Size Requirements This game requires a minimum screen size of 1024wx768h. It is designed for tablets, [??]

Articles, games and activities about our planetary neighbors. Ve a en Espa?ol. Earth. Sun. Solar System. Universe. Science and Tech. Educators. Gallery of NASA Solar System Images. Glorious planets and moons to view or print. explore; What Is Gravity? Gravity is the force by which a planet or other body draws objects toward its center.

The solar system has one star, eight planets, five dwarf planets, at least 290 moons, more than 1.3 million asteroids, and about 3,900 comets. Skip to main content . NASA's Europa Clipper is the first mission designed to conduct a ???
