EU Energy related Products directive (ErP) The most powerful way to combat climate change is to reduce energy consumption. The EU's target of 20 per cent energy saving for products by 2020 was not only met, but exceeded. This gave legislators and governments in Europe evidence that environmental restrictions on products work.

The Ecodesign of Energy Related Products Directive (ErP) has resulted in the banning of inefficient light sources. Hywel Davies looks at other products that might be under threat.
